

1 Rechne in Schritten.

$56 + 39 = 95$	$35 + 59 = 94$	$24 + 68 = 92$
$56 + 40 = 96$	$35 + 60 = 95$	$24 + 70 = 94$
$96 - 1 = 95$	$95 - 1 = 94$	$94 - 2 = 92$
$47 - 29 = 18$	$93 - 39 = 54$	$72 - 48 = 24$
$47 - 30 = 17$	$93 - 40 = 53$	$72 - 50 = 22$
$17 + 1 = 18$	$53 + 1 = 54$	$22 + 2 = 24$

2 Rechne vorteilhaft.

$46 + 9 = 55$	$28 + 9 = 37$	$85 - 9 = 76$	$63 - 9 = 54$
$46 + 10 - 1 = 55$	$28 + 10 - 1 = 37$	$85 - 10 + 1 = 76$	$63 - 10 + 1 = 54$
$46 + 19 = 65$	$28 + 19 = 47$	$85 - 19 = 66$	$63 - 19 = 44$
$46 + 20 - 1 = 65$	$28 + 20 - 1 = 47$	$85 - 20 + 1 = 66$	$63 - 20 + 1 = 44$
$46 + 29 = 75$	$28 + 29 = 57$	$85 - 29 = 56$	$63 - 29 = 34$
$46 + 30 - 1 = 75$	$28 + 30 - 1 = 57$	$85 - 30 + 1 = 56$	$63 - 30 + 1 = 34$

3 Trage die fehlenden Zahlen in die Zahlenhäuser ein.

96	85	79	65	100
59 37	28 57	29 50	39 26	52 48
60 36	30 55	30 49	40 25	50 50

4 Fülle die Rechentabellen aus.

+	9	19	58	39	28
24	33	43	82	63	52
15	24	34	73	54	43
38	47	57	96	77	66

-	9	29	48	59	38
95	86	66	47	36	57
67	58	38	19	8	29
81	72	52	33	22	43
